What you will receive for your investment:

Daily Healings

Every day you will receive some form of physical and energy healing:

In the morning sounding, stretching, and yoga.

In the form of [sound healings](#) by Robert and Ahilya.

In the form of Anointment Healing by Robert. Each participant will receive a half hour to an hour long [Anointment Healing](#)™ session with Robert (depending on the number of participants and other conditions).

As we walk the land and visit the various sacred sites you will receive the healing from Mother Nature herself in the form of the land itself, the flowers (the jasmine-like smell of Spanish Broom pervades much of the Languedoc atmosphere), the butterflies, birds, lavender fields, sacred high energy vortexian source waters available everywhere we go.

The organic bio dynamic foods we will be eating daily.

Daily Initiations

Every day you will receive one or two initiations designed to awaken, deepen and heal (balance) various aspects of your multidimensional energy being.

We are all a universe in our Higher Selves. For the last five thousand years or more we have gradually lost awareness of our oneness with God, Nature, our fellow human beings, our Higher Selves, the divine feminine, and the divine masculine, as our Mother Earth has moved deeper into the Kali Yuga (Dark Age).

The three initiations you will receive are designed to re-awaken these various inherently connected aspects of our being preparing us for the Shift of the Ages in 2012 and beyond.

The **Yeshua Magdalene Initiation** is for awakening, recognizing, deepening, & healing the inner union between the masculine & feminine energies within our beings through the power of Love, Light, Acceptance, & Forgiveness.

The **Munay Ki Foundational Rites** or Initiations are designed to awaken, re-establish, and deepen our connection with the divine feminine, our Mother Earth, the five elements, our instincts, and our connections with all life and matter... the stone people, the one leggeds (plants, trees), the two leggeds, the winged, furred, and finned (dolphins, whales)... and re-gain the Spirit of oneness with All our Relations.

The many **Oneness Blessings** will promote heart brain integration or what HeartMath® calls heart brain coherence, awakening the Kundalini Shakti (the Mother Power) that brings us to oneness, and the cleansing, awakening, balancing of our endocrine glands and chakras.
