The Oneness Blessing (also called Oneness Deeksha or simply Deeksha)

This work began in countless ages past... ever since man was “created in the likeness and image of God.”

The ancient Sufis¹ talk about the creation myth when they say that the first thing created by God was “the soul of the Prophet.” In the infinite wisdom of the Creator it was known that man would always need the Spirit of Guidance to bring him/her back to Truth if he/she got lost in the density of matter in the spiral of time especially in those ages when the Truth was less and less known and experienced.

The Oneness Blessing is a technology that helps man continue to move forward on the Path of Truth culminating in a permanent state of fluid and ever-transcending Awakening.

The Oneness Blessing is delivered by a simple laying-on-of-hands technique on the head of the recipient. The effect of the Oneness Blessing is the result of a change in brain neurophysiology which acts to quiet down certain counter-productive and overactive brain centers and awaken and activate other positive centers of spontaneous joy and love. This action of the Oneness Blessing on the brain and endocrine glands (physiological counterparts of the chakras) helps the recipient realize their true Higher nature and their oneness with God and all of His/Her creation.

¹ Sufis have been around since man was created. They formed the Society of Friends and they are followers of the Way of the Heart. The word may also be translated as the Lovers of Wisdom, the feminine Sophia.

The Mukti Deeksha Process

On day two of your workshop after your initiation as a Oneness Blessing giver and after you give your first Oneness Blessings to your fellow participants you will take a 30 minute break. Then you will participate in a very powerful [Mukti Deeksha process](#).

Involving dancing to awaken the Kundalini and chakras, the recitation of 9 affirmations, reprogramming the unconscious mind with a 49 minute chant, and receiving the Paduka Mukti Deeksha, you will finish the process by lying down in the Yoga resting pose for 20 minutes.²

The Padukas are wooden, golden, or silver sandals that represent the Feet of the Divine. As reported and elaborated on in Robert's [Bringers of the Golden Ball](#), during the first several Mukti Processes conducted for westerners... the original 21 Day Process... the Padukas were used in the following way:

Bhagavan would enter a very high state of consciousness and place his feet on the Padukas. Then the dasas or guides of Oneness University would place the Padukas on the head of the recipient as a very powerful way to receive the deeksha of Sri Amma Bhagavan³.

Use of the Padukas have again been revived for this powerful Mukti Deeksha Process.

² All native tribal cultures have used dance to awaken the Kundalini Shakti and to enter a trance state preparing the bodymind for connection to the Divine (Great Spirit). Nine is the number of completion. 49 is the "number of man" and visible light operates on the 49th octave. The 49 minute chant re-programs the unconscious mind with the truth of our divine nature. Robert had a very powerful sandalwood miracle at the feet of the Divine which is reported in his book *The Bringers of the Golden Ball*.

³ Written this way there is the acknowledgement that Sri Amma and Sri Bhagavan are the same divine consciousness in two different forms.

The 64 Deeksha Process

The Oneness Trainers are now conducting another powerful process that takes about 6 hours to complete. You must be a Oneness Blessing giver to take this class.

Robert was part of a group of about 150 Oneness Trainers to go through the first 64 Deeksha Process in India in April 2010.

In this process each Oneness Blessing giver both gives and receives 64 deekshas.

It is a way to greatly speed up our preparation process for the Great Shift of the Ages (the Precession of the Equinox and the movement from the Piscean Age to the Age of Aquarius) that we are all about to experience.

About 68,000 people need to be in very high states of consciousness in order to usher in this new Golden Age with as least trauma as possible.

So it is important for us to become Oneness Blessing givers and undergo these two powerful processes, the Mukti Deeksha Process and the 64 Deeksha Process.

Here is what 12 ancient cultures and one modern Avatar have said about the December 21st 2012 Precession of the Equinox:

Mayans	Call it the end days or the end of time as we know it.
The Hopi	Predict a 25 year period of purification followed by end of the Fourth World and beginning of the Fifth.
Maoris	Say that as the veils dissolve there will be a merging of the physical & spiritual worlds.
Zulus	Believe that the whole world will be turned upside down.
Hindus	Kali Yuga (end time of present consciousness [Ancient Mind] of man)... the Coming of the Kalki Avatar & the critical mass of Enlightened Ones.
Incas	Call it the Age of Meeting Ourselves Again.
Aztecs	Call this the Time of the Sixth Sun... a time of transformation and the creation of a new race.
Dogon	Say that the spaceship of the visitors, the Nommo, will return in the form of a blue star.
Pueblo	Acknowledge it'll be the emergence into the Fifth World.
Cherokee	Their ancient calendar ends exactly at 2012 as does the Mayan calendar.
Tibetans	Kalachakra teachings are prophesies left by Buddha predicting the coming of the Golden Age.
Egyptians	According to the Great Pyramid (stone calendar), the present time cycle ends in year 2012 AD.
Avatars	Before the last Avatar, Sri Ramakrishna, left the planet in 1888 he predicted that the next Great Light that would come to transform the Earth would emerge from an area where three states meet. Jivashram school founded by Amma and Bhagavan (now called Satya Loka) is located where the three states of Karnataka, Andra Pradesh and Tamil Nadu meet.
