

Why it is Important for you to participate in the Bozeman Adventure

What is needed in today's World?

The most vital need in today's world is our development of the greatest aspect of our being.

Doing, acting without the development of the greatest aspect of our being has led to the multitude of **serious problems being faced by humanity today**... the model of scarcity being promoted in the media, problems of financial insecurity caused by having the number one commodity in the world... money, in the hands of a few private individuals who control

the central banks, energy production pollution from burning non-renewable fossil fuels and radioactive wastes from nuclear power, among many other sources of pollution, relationship and family breakdowns, allowing war to be the world's most profitable business, a fact revealed to all since the days of Major General Smedley Butler (google his title and name), having the dominant health care system be the number one killer on the planet (see [Gary Null's Death By Medicine](#)), the world-wide promoted scares of swine flu and other health issues, and a whole host of other problems.

All of the above problems result when humanity is ruled by the Ancient Mind and fails to develop its greatest aspect of being and fails to integrate its mind with its heart. I have spoken at length about the Ancient Mind in my book, [Bringers of the Golden Ball](#) and in several pdf articles available on my website so I won't go into detail here.

What is needed now is the development of our spiritual heart.

The Mind without the heart is heartless, unfeeling, disconnected, non-visionary, non-intuitive, and compassion-deprived. It either does not see or feel or lives in denial about the pain and suffering its actions cause. It is non-visionary, does not plan for seven generations, wants immediate gratification, and desires to control, dominate and manipulate others for its own benefit. In its major disease, which is its separation ridden nature, it fails to concern itself with more than "me" or "my family".

This disease of separation has left us half human and we have over developed the least important half in a distorted way. I say the least important half because in its distorted development we have failed to recognize the divine nature of that half.

I am referring to the "man" half of the hu-man equation. Man means soil, matter, mind. When this man half is developed without the hu part or spirit part our eyes are closed to the true nature of man which is divine. Matter is divine.

It is the development of the hu part which is the development of the greatest aspect of our being.

We are human **beings**. Our being is our essence. The greatest aspect of our being is our spirit, the hu part, the divine resonance within our spiritual heart.

When we recognize this truth we take the steps necessary to develop the hu part of our being and make this the number one priority in our lives.

Hu meeting and marrying man is the purpose of our being. When this marriage happens the result is ecstatic bliss and we enter the Kingdom of Heaven.

Hu is more closely of the nature of the divine feminine, the holy Spirit, Sophia, the Mother, Kundalini, Shakina, which is exemplified and embodied in our sacred eastern lore by Sita, Radha, Yashodhara, Parvati, Lakshmi, Quan Yin, Tara, Sarada Devi, Amma Padmavati, Amachi and others, known and unknown. She is exemplified and embodied in our sacred western lore by Sarah, Sheba, Zipporah, Magdalena, Kadija, Amina Begum, Mother Theresa and others, known and unknown.

Man, although the word itself does not refer to gender, is of the nature of the divine masculine as exemplified and embodied by Yeshua (Jesus) in the western spiritual tradition and Bhagavan in the eastern spiritual tradition.

In the Essene tradition, Yeshua said... "I and my Father/Mother are one."

In the Gnostic tradition from the Gospel of Thomas, Yeshua said:

"When you make the two one,
and when you make the inside like the outside,
and the outside like the inside,
and the above like the below,
and when you make the male and the female one and the same...
then you will enter the Kingdom of God."

Our [Bozeman Adventure](#)... a mini French Adventure... is the opportunity for you to continue to develop the hu part of your being and to marry the hu part with the man part. Why is this energy healing seminar and nature touring in Bozeman called a mini French Adventure? This is for the simple reason that all of the aspects of the Bozeman Adventure have been offered in France for 8 out of the last ten years.

The core of the Bozeman Adventure is the deeper and further awakening of our spiritual heart. It is inside the spiritual heart that the hu resides while we are embodied. And the natural function of the heart is to integrate and unite both aspects of our being. This has been known for thousands of years by Shamans and Shamunkas, Yogis and Yoginis, men and women Saints, Sages, Mystics, Prophets and Avatars. And now through the science of HeartMath™ we see this spiritual realization of the importance of the heart finding scientific proof for those who may need it.

Preparation... Aligning our energies before and during the seminar:

Full Moon -September 4, 2009 in Pisces. New Moon -September 18, 2009 in Virgo.

We will be in a waning moon phase, starting at the end of a water moon on September 7. During this time it is best to involve ourselves in recuperation, rejuvenation, and healing practices where the expenditure of a little energy will produce great results.

It's a good time to go inside, connect with our inner world, reorganize and plan for our new emergence. It's a great time to grow our inner awareness and grow our being. All initiations for growing our being are well served during this waning phase of the moon.

Please take advantage of the lunar energies of time during the preparatory phase before the workshop begins. Read and study the materials suggested below and on my website at <http://www.bhagavandharma.org/Bozeman.htm>. Start the process of focusing on your inner self, growing your inner being during the watery full moon in Pisces and complete the process during the waning moon. Remember the sacred Goddess, the divine Mother is all the waters of the world. We can use these waters of loving and compassionate emotion to heal our bodymind, let go of those things from our past which have not served us, burn them up in the great fire of our being, and rise from their ashes as the Phoenix, the Eagle, the Condor... manifesting our true spiritual nature, which is one with Great Spirit.

You are warmly invited to join us for our [Bozeman Adventure](#).
