

Distance Learning Certification Course in Mind Body Medicine & Vibrational Healing with Dr. Robert March, BS, ND

Thank you for your interest in my Vibrational Healing Manual and in my Distance Learning course in Vibrational Healing.

My interest in this vast and leading-edge topic began at an early age.

When I look back now, after 39 years in the field, I realize that I have spent lifetimes in this field.

Really, there is only vibration in creation and our job is to bring our vibration into balance, integrity, and alignment with the Source of all vibration. This is the essence of all healing.

That source may be described in many ways, depending on your orientation. A scientist might call it the Zero Point, the Info Realm, the Unbroken Continuity, and in several other terms as well.

Religion calls it God, Allah, Light, and several other terms.

Spirituality calls it Love, Oneness, Great Spirit, Munay, Holy Mother, and several other terms.

This topic thrills me, it inspires me, it is a great passion, and it is the only game in town.

On the following two pages you will see the basic information about my distance learning course in mind body medicine and vibrational healing.

I hope that you will decide to join me on this journey of self-discovery and self-healing.

In Health and Light,

Robert

Vibrational healing recognizes that consciousness is primary (causal) and that matter is effect... that everything is vibration. The scientific heart of vibrational healing comes from several fields. Leading researchers in the exciting field of **Mind Body Medicine** have proven over the last 50 years that our thinking and our feeling have profound effects on the effectiveness of our immune system to keep us healthy.

Quantum physics, field theory, information theory, the biology of perception model (Lipton), and fractal mathematics have provided us with working models as to how subtle forces like our thoughts, emotions, chakra energies, and spirit interact and transact in a vibrational domain or field beyond time and space. Vibrational remedies such as flower essences, homeopathics, sound, light, Reiki, Deeksha & energetic aromatics are effective healers in the vibrational domain. Films like What The Bleep I & II and The Secret help us learn how to access the field for health, harmony & abundance. The biology of emotions model (Pert) as well as the biology of perceptions model show us how emotion and perception (consciousness) are able to bridge between the subtle vibrational realms and the realm of the body's biochemistry. Science is proving the timeless realizations of the mystics and the gap between science and spirituality is disappearing.
