Here you will find the 'meat and potatoes (or tofu and beans) of your CD.

! Roberts Yeshua Magdalene book is self-explanatory.

Double clicking on the 13 Bonus Books Folder will open up a view looking like this:

The 'odd-man-out' pdf book is entitled HeartMath. I have included this book on this CD because it is a field that has always interested me... the 'marriage' of science and spirit.

It is also the 'science of the heart' and it makes very good sense to me as I have been a student on the spiritual 'Path of the Heart' for 40 years.

One of my Sufi guides along the way was fond of saying, "science is coming to the rescue of spirituality."

Because the dominant culture over the last 5000 years has been our patriarchal western culture, it has been drilled into our mind that something is not real unless it has some solid science behind it. Although this belief itself is a myth, none-the-less there are many people out there who do not give spirituality the 'time of day' unless it is connected to some

science. So here it is... the HeartMath™ Science of the Heart.

When you double click on the 30 Bonus PDF Articles Folder you should see this:

The 30 titles are pretty self-explanatory.

All in all you have a lot to explore.

What took me 12 years to compile and digest is at your finger-tips and in front of your eyes and ears.

I hope that you will thoroughly enjoy this magnum opus on Yeshua and the Magdalene from a heart that loves bliss and a mind that wanted and continues to want a deeper connection to the great Avatar and Master of Love/Light and his beloved wife and spiritual partner and spiritual equal, Mary Magdalena.

I realize that this is a lot to enjoy. However, any time you feel like sharing your experience with my Yeshua Magdalena... the Greatest Love Story Never Told book and the bonus contents of your CD, I would greatly love to hear from you.
