

THE GATHERING OF ONE

Global Eden Event

An Invitation to the World

Indigenous wisdom and quantum physics can now be integrated with information coming from the angelic realm. North, Central, and South American prophecies point to this time in human history as a unique opportunity to foster oneness. Ancient predictions about the Eagle flying with the Condor speak of a time when the Golden Age of Peace will arise from the coming together of modern science with indigenous wisdom. That time is *now*.

Also coming forth is very specific guidance from angelic appearances that sacred geometry combined with the power of collective intention can create massive shifts in our experience of reality . . . "changing the dream" in the words of our indigenous elders.

This is an unparalleled opportunity to come together in oneness to usher significant change for humanity and our world. This change must come *through* us. All are invited to participate in Yellowstone and around the world, both as individuals and groups.

Each day of the event, we come together to create high levels of internal and group coherence, cleansing our hearts and opening to Divine Love. Each activity focuses on bringing us to a living awareness of oneness. That oneness and love is what we take into the Grand Formation on June 21st.

Event Background: For nearly 15 years a series of angelic appearances bring the message, "Something wonderful is going to happen...and there is nothing you can do about it." The angels asked a single individual, Joe Crane, to find seven to whom the

angels would give teachings, and in turn each of them would take these teachings to the world by finding seven more, and so on. Hundreds of angel appearances have occurred offering a dazzling array of teachings to thousands who have stepped into the Circle of Sevens, gathering in oneness and becoming empowered in their giftedness. The latest teachings give humanity the choice to create the 1000 years of peace, beginning now.

The group sponsoring the event, Angel Gate Creations, is about self-commitment between each individual and their Creator. They aspire to live by the example of "Teach Only Love." The Gathering of One - The Global Eden Event will foster personal transformation, and through that, global transformation.

WHEN: June 17-21, 2008

WHERE: Main Event & Grand Formation in West Yellowstone, Montana, USA

- Orientation: June 17
- The Dream Circle: June 18
- Living in Giftedness: June 19
- Dance of Oneness: June 20
